SKILLS

- No-Code Development
- Data Analysis & Visualization
- UI/UX Design
- Version Control (Git/GitHub)
- Project Management
- Programming & Problem-Solving

TECHNICAL SKILLS

Programming Skills:
C, Python, Java,SQL

Web Development:
HTML, CSS, JavaScript, React.js, Node.js, PHP, MySQL, MongoDB

Data Science & ML:
Data Analysis, EDA, Power BI

LANGUAGES

- English
- Tamil

CAREER OBJECTIVE

Computer Science student with strong skills in Software Development, AI/ML, and Data Analysis. Seeking an entry-level role to contribute to innovative projects while expanding technical expertise and problem-solving skills.

CERTIFICATIONS

- Full Stack Web Development
- AI & Machine Learning
- Deep Learning with Python
- Data Analytics & Visualization
- Cybersecurity Fundamentals

ACHIEVEMENTS

- Hackathon participation (2x)
- Innovation day projects (2x)
- Research paper (Sales Forecasting)
- AI Project – Transfer Learning
- State-Level Quiz Competition

PROJECTS

Online Food Ordering System:

- Focused on improving the digital food ordering experience for customers and order management for restaurants.
- **Tech Stack**: HTML, CSS, JavaScript, PHP, MySQL

Electrician Service Booking System:

- MERN stack application enabling online electrician bookings with real-time schedule management and service dashboard.
- **Tech Stack:** React.js, Node.js with Express, MongoDB,

Sales Forecasting using Machine Learning:
Predictive analytics on sales dataset using Linear Regression & SVM (R^2 = 0.89).

EDUCATION

NANDHA ENGINEERING COLLEGE 2025 – Present
Erode
Department of Computer Science and Engineering
CGPA: 8.7
